LAB RECORD

Insurance Claim Request Form - Basic Fields

Detail	
Name	THARUNIKKA A
Register Number	240701564
Course / Section	B E CSE
Platform	Zoho Creator
Application	Insurance Claim Request & Processing Management
Assignment	Assignment 04 - Basic Fields

1. Aim

To design and build the Insurance Claim Request Form in Zoho Creator using all thirteen Basic Fields, apply the required field validations, and generate the Claim_Request_Report so that claim requests can be collected in a structured digital form.

2. Procedure

2.1 Creating the application and form

1. Logged in to Zoho Creator and created a new application named Insurance Claim Request & Processing Management.
2. Created a new form named Claim_Request_Form using the Form Builder.
3. Divided the form into four sections: A - Claimant Details, B - Contact Details, C - Claim Details, D - Scheduling & Declaration.

2.2 Adding the thirteen Basic Fields

Section	Field name	Field type	Setting
A	Claimant_Name	Name	First name, Last name; mandatory
A	Claimant_Type	Radio	Policyholder / Nominee / Third Party
A	Policy_Number	Single Line	Mandatory
B	Email_Address	Email	Email format validation on
B	Contact_Number	Phone	Indian country-code format; mandatory
B	Residential_Address	Address	Street, city, state, pincode
C	Claim_Type	Drop Down	Insurance categories, e.g. Motor Insurance; mandatory
C	Date_Of_Incident	Date	Future dates not allowed; mandatory
C	Claim_Amount_Requested	Number	Positive values only; mandatory
C	Supporting_Documents_Available	Multi Select	Photographs, Police FIR Copy, Repair Estimate
C	Incident_Description	Multi Line	Free-text description

Section	Field name	Field type	Setting
D	Preferred_Callback_Time	Time	Time picker
D	Declaration_Of_Authenticity	Checkbox	Must be checked to submit; mandatory

2.3 Configuring validations

1. Marked Claimant_Name, Contact_Number, Policy_Number, Claim_Type, Date_Of_Incident, Claim_Amount_Requested and Declaration_Of_Authenticity as mandatory in the field properties.
2. Enabled the email format validation on Email_Address.
3. Set the country-code format for Indian numbers on Contact_Number.
4. For Claim_Amount_Requested, restricted the value to be greater than zero.
5. For Date_Of_Incident, disallowed future dates by using the date validation (not later than today).
6. Made Declaration_Of_Authenticity mandatory so that the form cannot be submitted unless it is ticked.

2.4 Report and acknowledgement

1. Created the Claim_Request_Report as a list report showing all submitted claim requests.
2. Configured an acknowledgement email to the claimant on form submission, using the Email_Address field value.
3. Opened the form in Preview mode, filled it, and submitted three sample claims.

3. Output

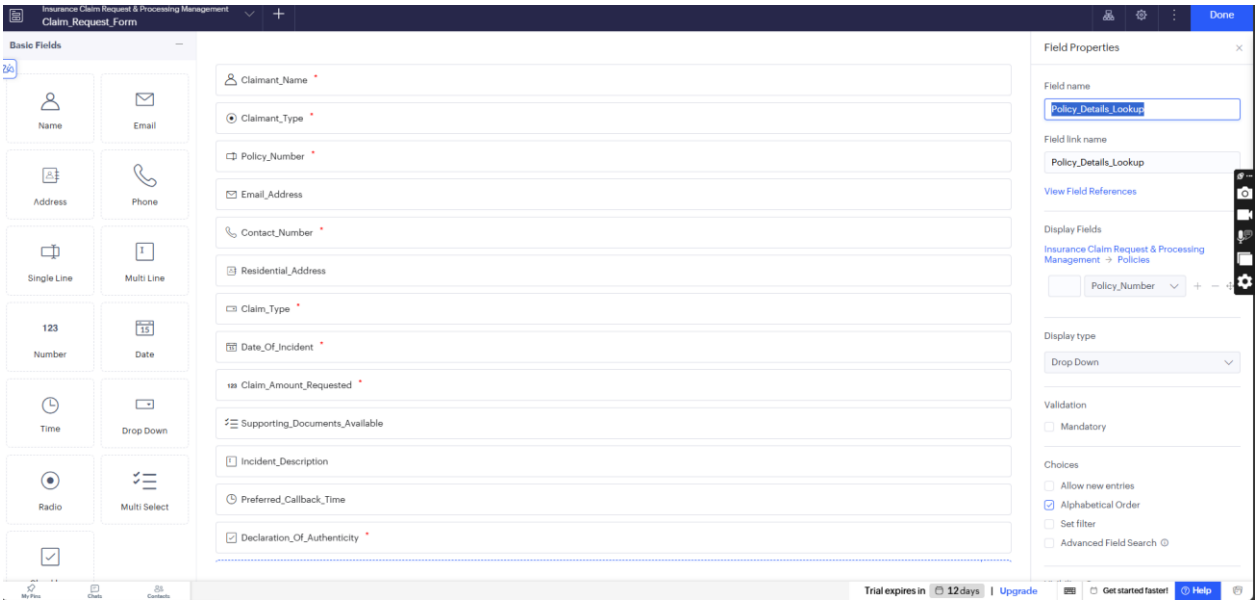

Figure 1: Form Builder showing all 13 Basic Fields (top half)

Claim_Request_Report with sample records.

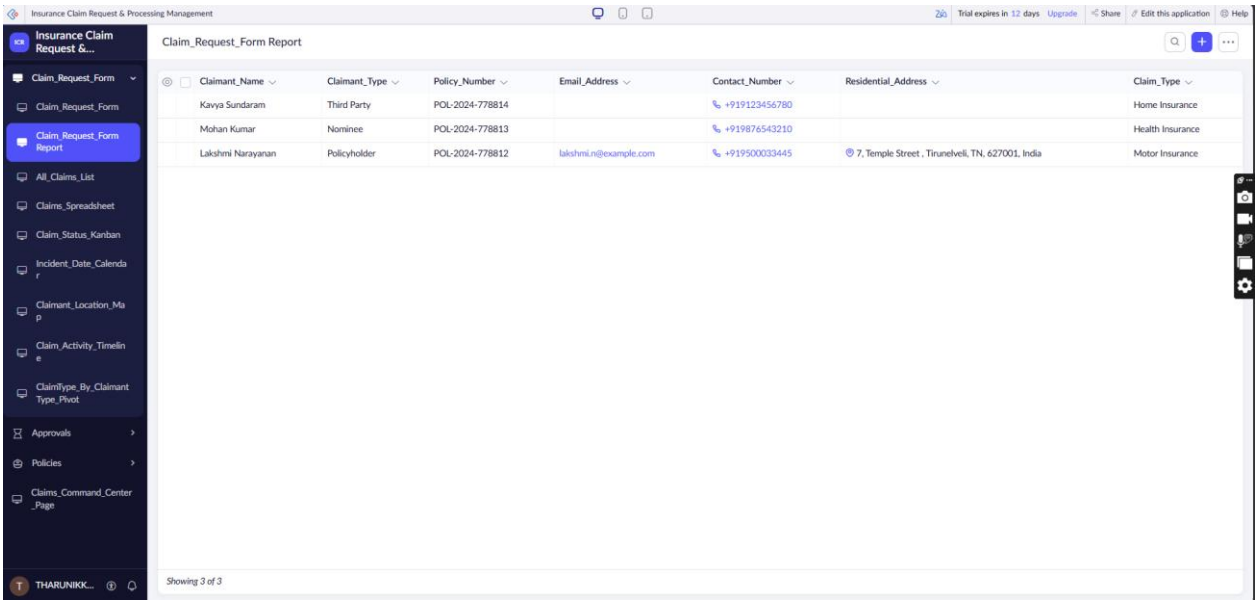

Figure 6: Claim_Request_Report with at least three sample records

Result:

The Claim_Request_Form was built in Zoho Creator with all thirteen Basic Fields arranged in four sections. The required validations were applied, and the Claim_Request_Report displays the submitted sample claim records.
