LAB RECORD

Insurance Claim Reports Suite - Report Types

Detail	
Name	THARUNIKKA A
Register Number	240701564
Course / Section	B E CSE
Platform	Zoho Creator
Application	Insurance Claim Request & Processing Management
Assignment	Assignment 04 - Report Types

1. Aim

To build reports on the Claim_Request_Form using the Report Types of Zoho Creator - List, Spreadsheet, Kanban, Calendar, Map, Timeline, Pivot, Chart and Summary - so that each stakeholder gets a view suited to their need.

2. Procedure

2.1 Preparing the form

1. Added four fields to Claim_Request_Form that the reports need: Claim Status, Investigation Status, Surveyor Assigned and Settlement Status.
2. Entered five to ten sample claim records with different claim types, claimant types, dates and statuses.

2.2 Reports created

Type	Report name	Key setup
List	All_Claims_List	Sorted by Date_Of_Incident descending; filters on Claim Type, Claimant Type, Status
Spreadsheet	Claims_Spreadsheet	Grouped by Claim Type; Investigation Status, Surveyor Assigned, Settlement Status editable
Kanban	Claim_Status_Kanban	Grouped by Status: Submitted / Under Investigation / Approved / Settled / Rejected
Calendar	Incident_Date_Calendar	Based on Date_Of_Incident
Map	Claimant_Location_Map	Based on Residential_Address; pins by Claim Type
Timeline	Claim_Activity_Timeline	Based on Claim_Submitted_On; grouped by week
Pivot	ClaimType_By_ClaimantType_Pivot	Rows Claim_Type, columns Claimant_Type, count; blanks shown as 0
Chart	ClaimType_Distribution_Chart	Pie chart by Claim_Type, count
Summary	ClaimType_Amount_Summary	Group by Claim_Type; count, sum, average of Claim_Amount_Requested; INR, 2 decimals

2.3 Steps for each report

1. Opened the Report Builder (+ New Report) and selected the report type in the type selector.
2. Selected Claim_Request_Form as the base form and chose the fields or grouping needed.
3. Applied the sort, filter, grouping and format settings listed in the table above.
4. Saved the report and checked it with the sample records.
5. Tested one interaction: [clicked a date on the calendar / dragged a Kanban card] and took before and after screenshots.

3. Output

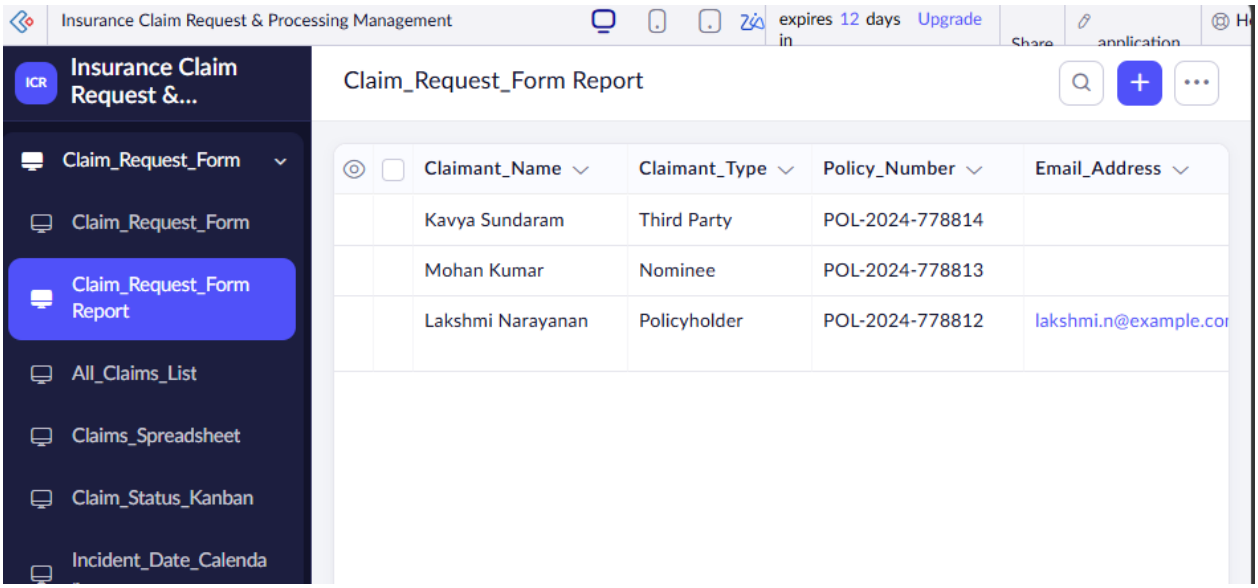

Figure 1: Report type selector

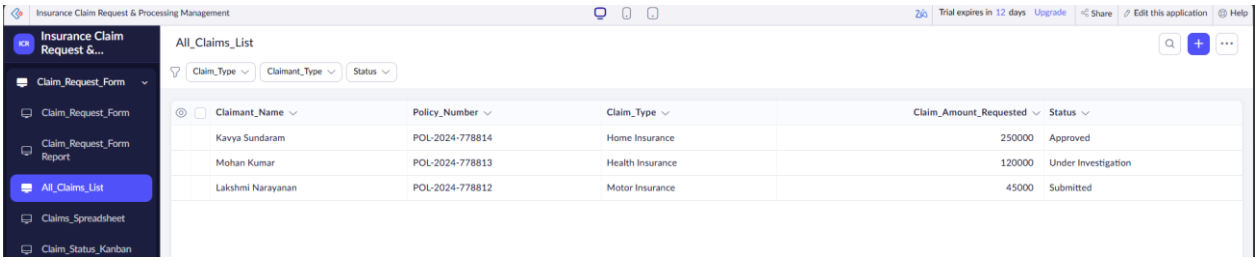

Figure 2: All_Claims_List

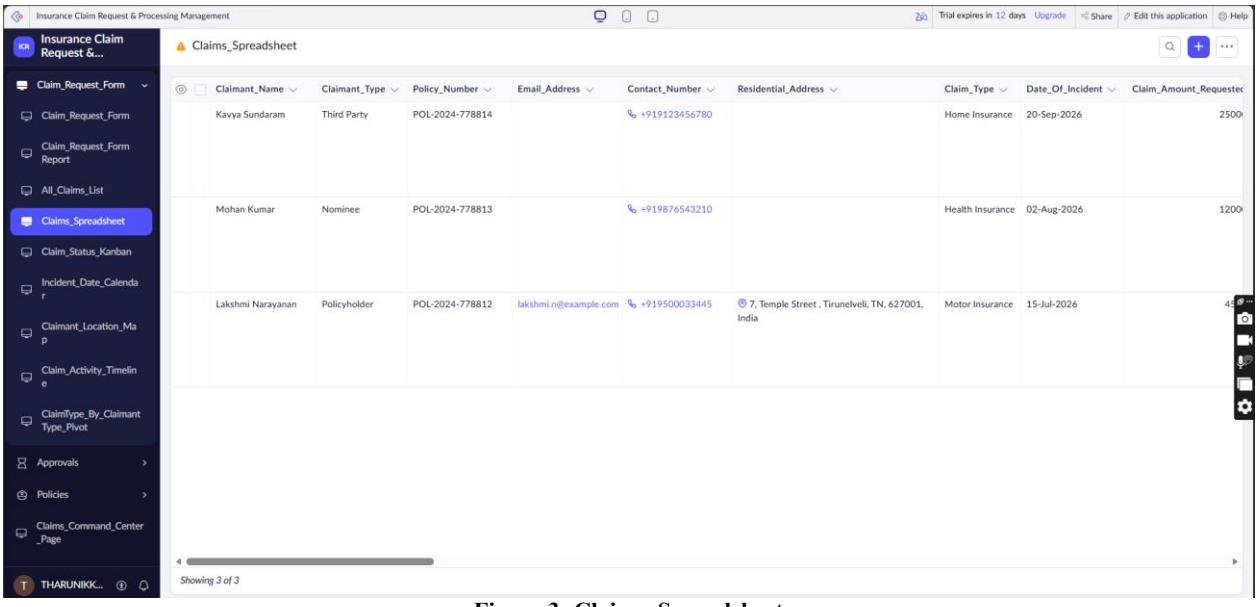

Figure 3: Claims_Spreadsheet

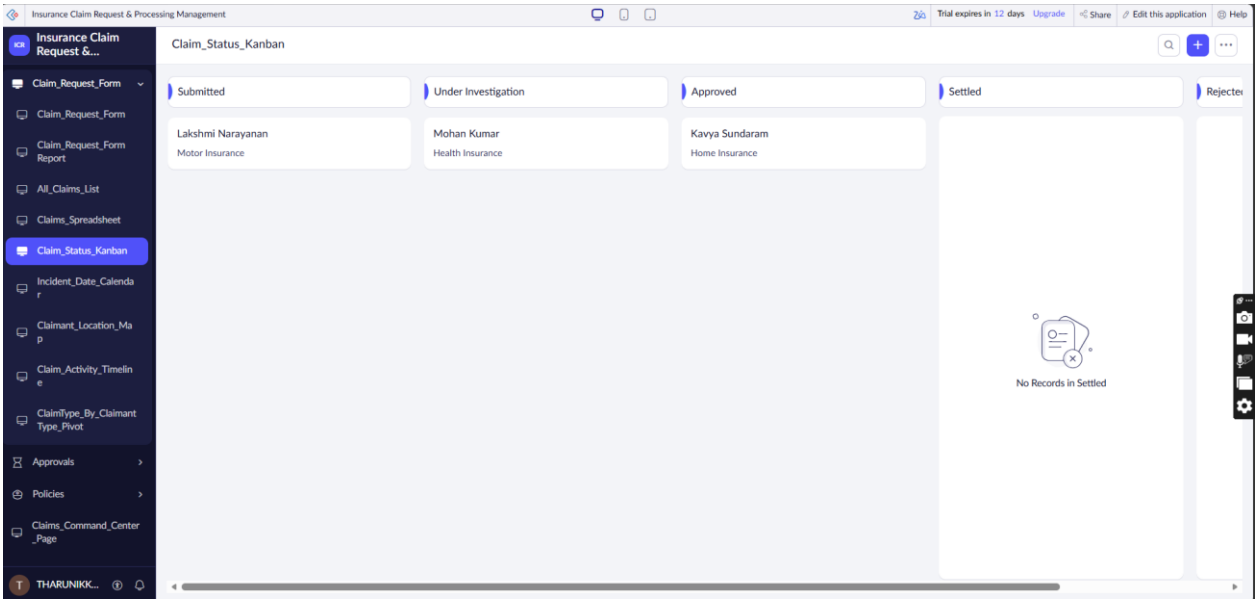

Figure 4: Claim_Status_Kanban

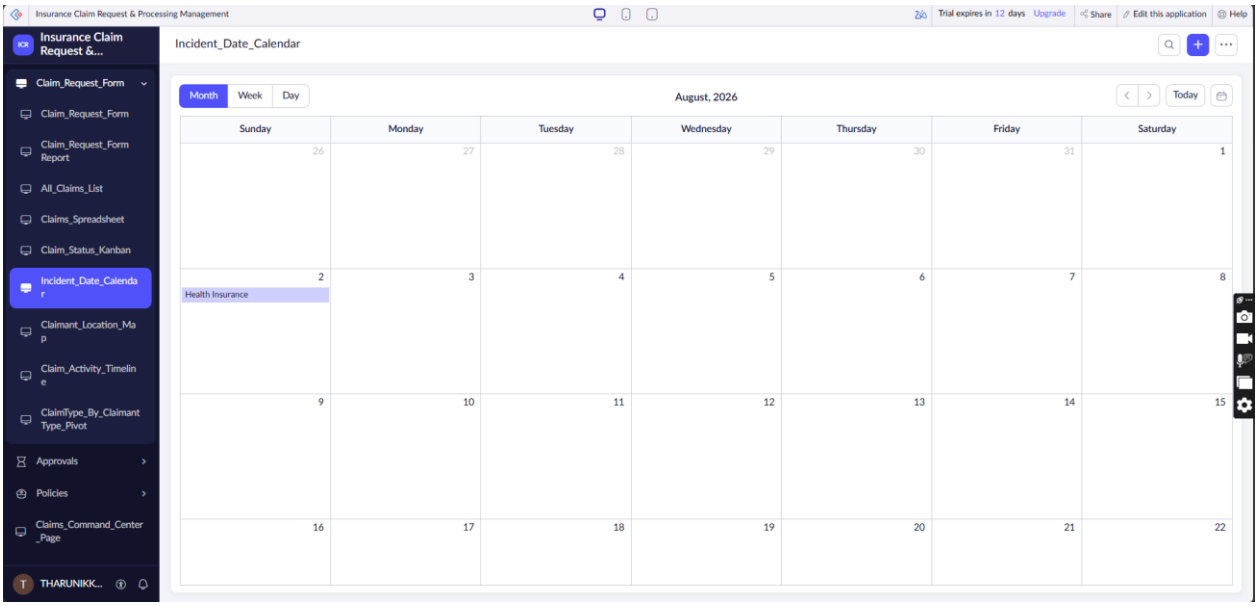

Figure 5: Incident_Date_Calendar

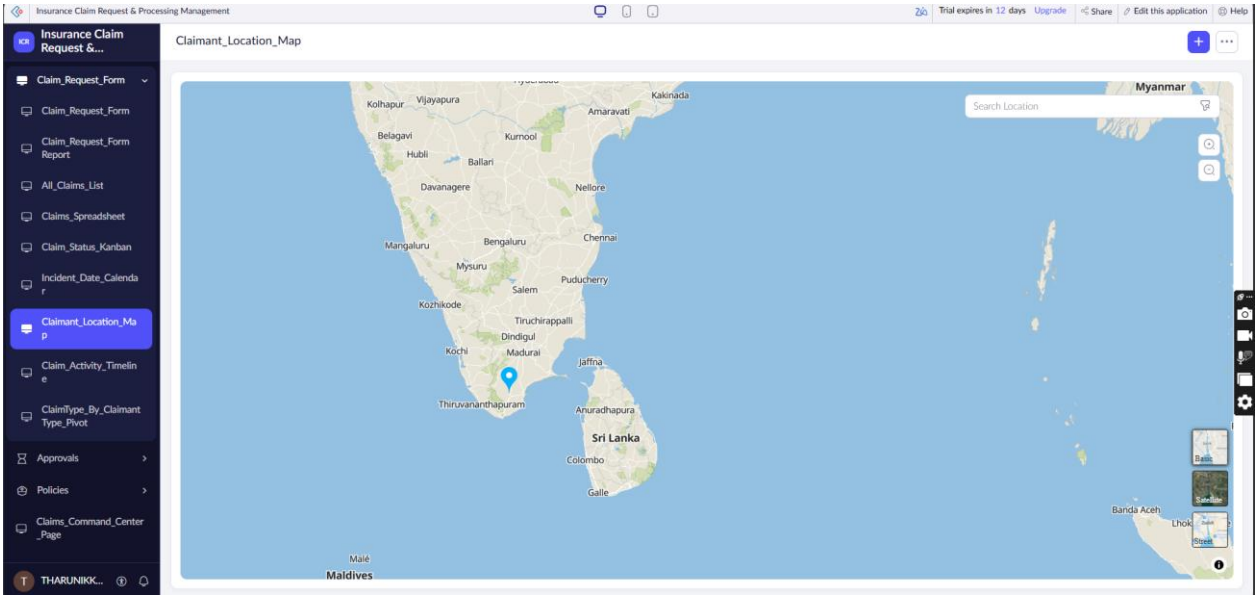

Figure 6: Claimant_Location_Map

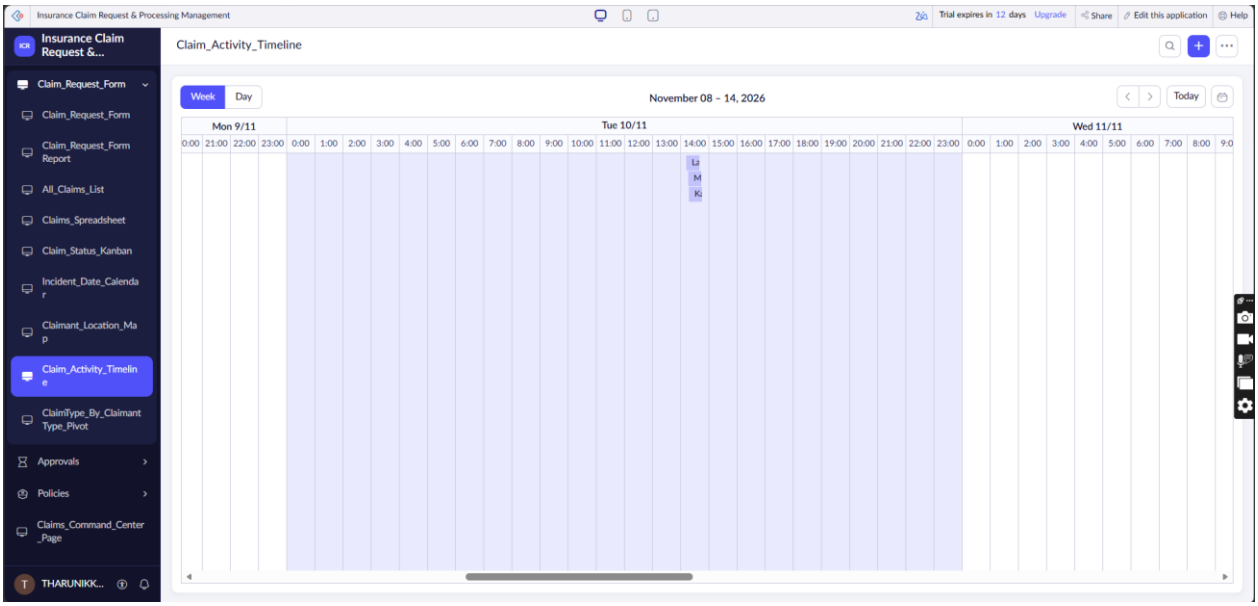

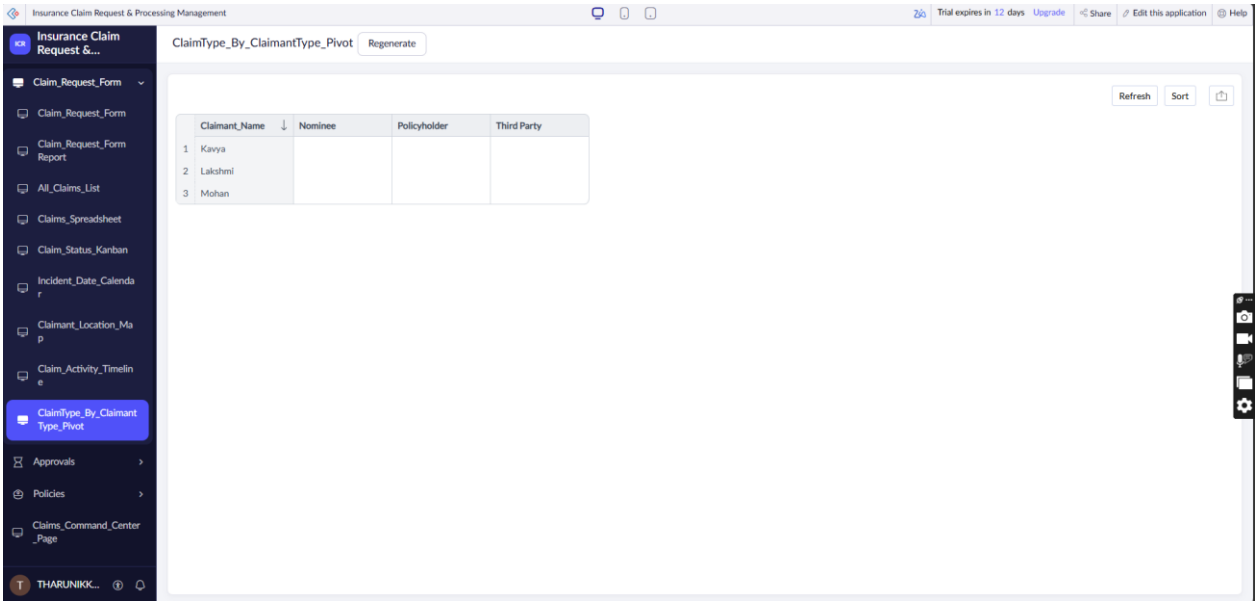

Figure 7: Claim_Activity_Timeline Figure

8: ClaimType_By_ClaimantType_Pivot

4. Result

Reports were created on Claim_Request_Form with sample data, and each report displays the claim data in the format suited to its users.
